Education Foundation for Nuclear Science

Thank you for your letter of Feb. 20
inviting me to membership.

I have subscribed to the Bulletin
almost from its inception; and I
am happy to accept your invitation.

Please send me the full Bylaws
although many of the articles in
the Bulletin strike me as leaning to
excessive trust in the goodness of the
world, the quality of information and
debate on subjects of crucial impor-
tance would be greatly impoverished
without the Bulletin. I am delighted
to be a "Sponsor".

Sincerely,
Joshua Lederberg
